**Hambleton Primary Academy**

*Outstanding learning for children aged 3-11*

Dear Parents

Yesterday the Government released the league tables for primary schools across the country. The results were based on the 2016 statutory testing in Key Stage 2.

We were elated to find out that we are in fact the **top school** in Blackpool, Wyre and Fylde and in the top 1% of the country!!

Our school mission statement is 'to seek challenge and embrace change' and that is exactly what we did last year, at a time when the parameters of success were uncertain.

As a staff we all work together with the same vision to constantly raise the bar and set ourselves new challenges. Children only get one chance to succeed with us so every day counts. This year we have planned our own creative curriculum that is skills based and supports the individual needs of our children.

Although we are extremely proud of the results this year our biggest achievement is the ethos we have created with children who are happy, motivated and excited to learn. Our children are so lucky to have such outstanding and inspirational staff who are passionate about the job we do and getting it right!

In order to be a successful school you need to have corporate consistency throughout, where all policies, procedures and rules are embedded and all staff from the teaching staff to office staff and welfare assistants have the same vision.

We feel so proud to be part of Hambleton Primary Academy and what we as a team continue to achieve.

Mrs H Wood  
Principal
